Auto Quality Matrix

The key of a tailor made **Lean System**, for the **excellence** of your processes

The **Lean Manufacturing** tools optimize the processes and improve the quality, they base on the **Kaizen** philosophy, which manifest itself by a "continuous improvement".

For 20 years Toyota maintained a comfortable advance on its competitors in terms of **quality** and **efficiency** thanks to the Toyota Production System (TPS) which is at the origin of Lean.

In 1984 MIT revealed the superiority of Toyota...
... in 2007, This supremacy is always a current events...
... and the Lean goes into all the domains of current events*

** Massachussetts Institute of Technologie*

Globalization

Competition

Complexity...

Christian Daniel, Entrepreneur with international profile, promotes methods of work, organization and industrial deployment of Japanese inspiration which he built on for 10 years at **Valeo**.

In partnership with several qualified professionals stemming from big groups, he intervened as much in Europe as in China, in Russia and in Japan.

In 2005, he founded **Lean Key**, an independent and creative firm being inclined to the performance improvement of the industrial and administrative processes.

Ensuring the costs reduction, **Lean Key** advises, trains and follows its clients in the deployment of the **Kaizen** and customized **Lean Systems**.
